

Case Manager

About us:

We are a young and dynamic fintech lender with a focus on bridging loans. We are funded by institutional investors and are growing our loan book at a healthy pace. We are currently lending in the UK, Ireland, Netherlands, Spain, France, Switzerland and Luxembourg. To find out more about us: www.fiduciam.co.uk.

Why consider us?

We have important funding commitments from top-tier institutional investors now that we have established a successful four-year lending track record. The principals behind Fiduciam have established multiple successful ventures and platforms in the financial services sector and are proven innovators. They stand out by their willingness to invest in infrastructure and their long-term approach. Your opportunity is to join a company at a stage where it has successfully established itself and expands rapidly.

Your role:

To project manage new loans from enquiry stage through to completion, thereby working with the SME applying for the loan, its officers and advisors, the solicitors, the valuer and the originator. You will assist the underwriters in assessing and approving the loan application. You will report directly into the Head of Property Lending and the Head of Case Management.

Specific Responsibilities:

- Multi-disciplinary project management;
- Interaction and negotiation with SME borrowers, their officers and advisors;
- Financial analysis and due diligence of a wide variety of businesses in multiple jurisdictions;
- Instructing and liaising with our valuers;
- Instructing and liaising with our solicitors;
- Visiting the loan applicants and their business;
- Having a good rapport with the loan applicants and introducers;
- Managing a large pipeline of cases through to completion, ensuring both company service standards and policies are complied with throughout;
- Management and follow-up on existing loans within your portfolio;
- To protect the company by having a good grasp of its policies, procedures and compliance guidelines and by having a good awareness of risk; and
- Demonstrating and documenting your understanding of each case to assist underwriters in assessing and approving the loan application;
